square

If you find these two pages useful,
you might like my two mini-units:
one focuses on 2-d (flat) shapes and
the other focuses on 3-d (solid) shapes.

These units include sorting pages, matching pages,
graphing pages, emergent reader little books,
shared reading copies, classroom posters, flash
cards, and student awards.

Each unit is around **40 pages** of printables ready
to use in your classroom!!
